

Idee

1. User kann zwischen:

Morgen & Abend wählen

2. User kann zwischen

Eichhörnchen & Hund wählen

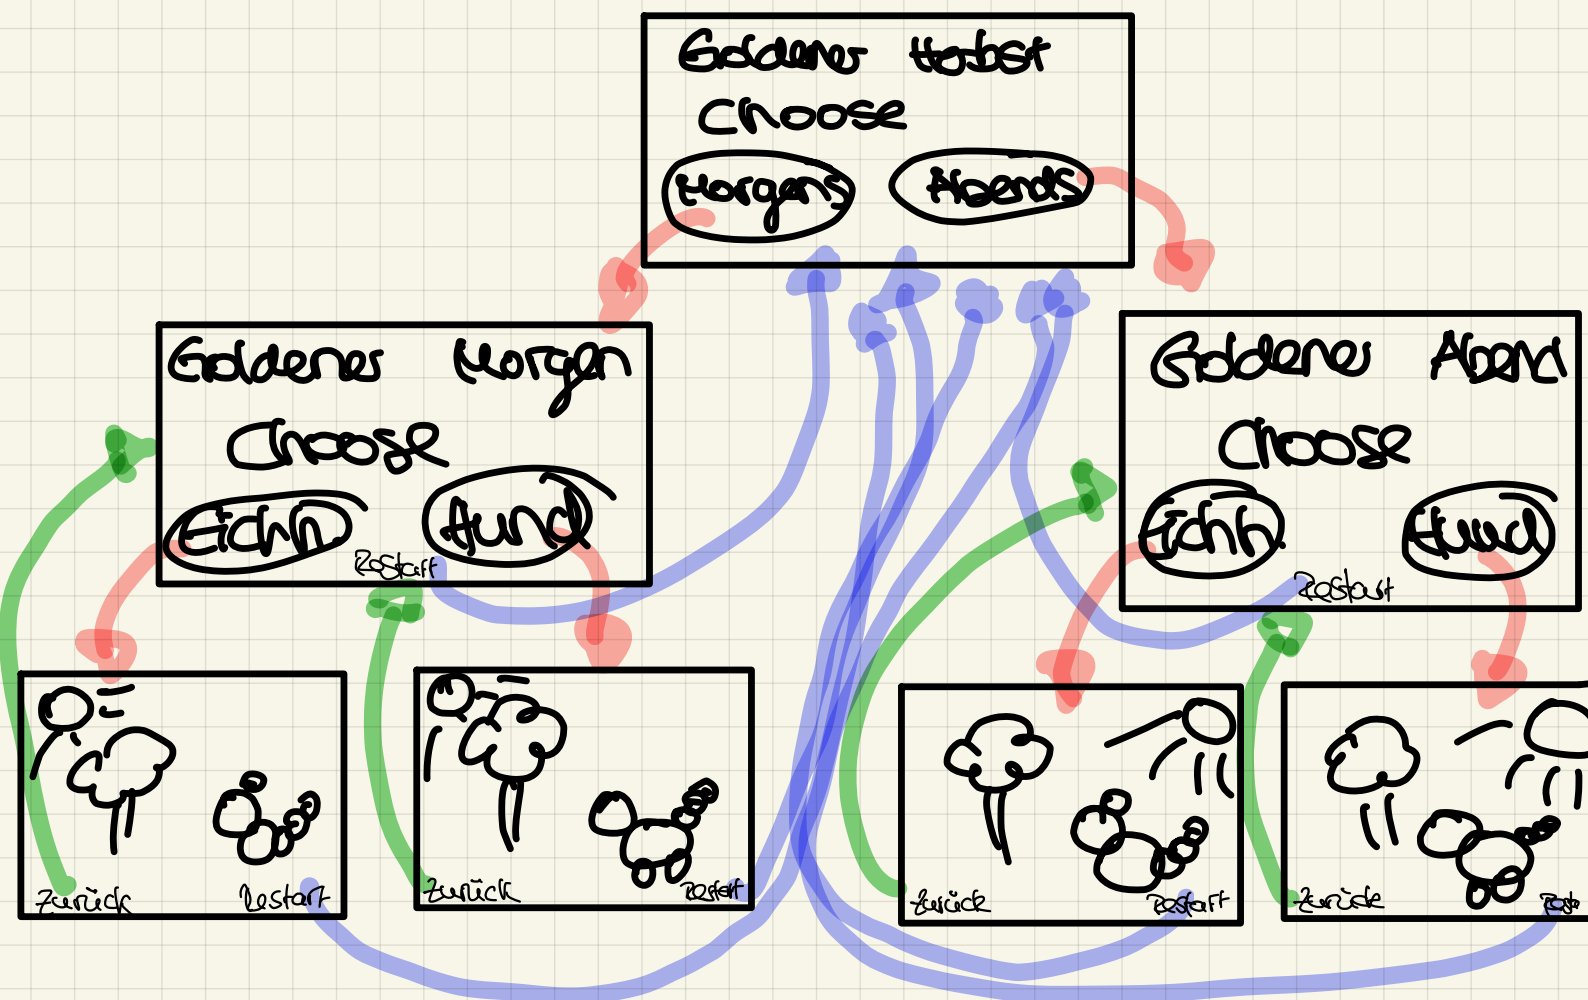

Hund:

Hörnchen:

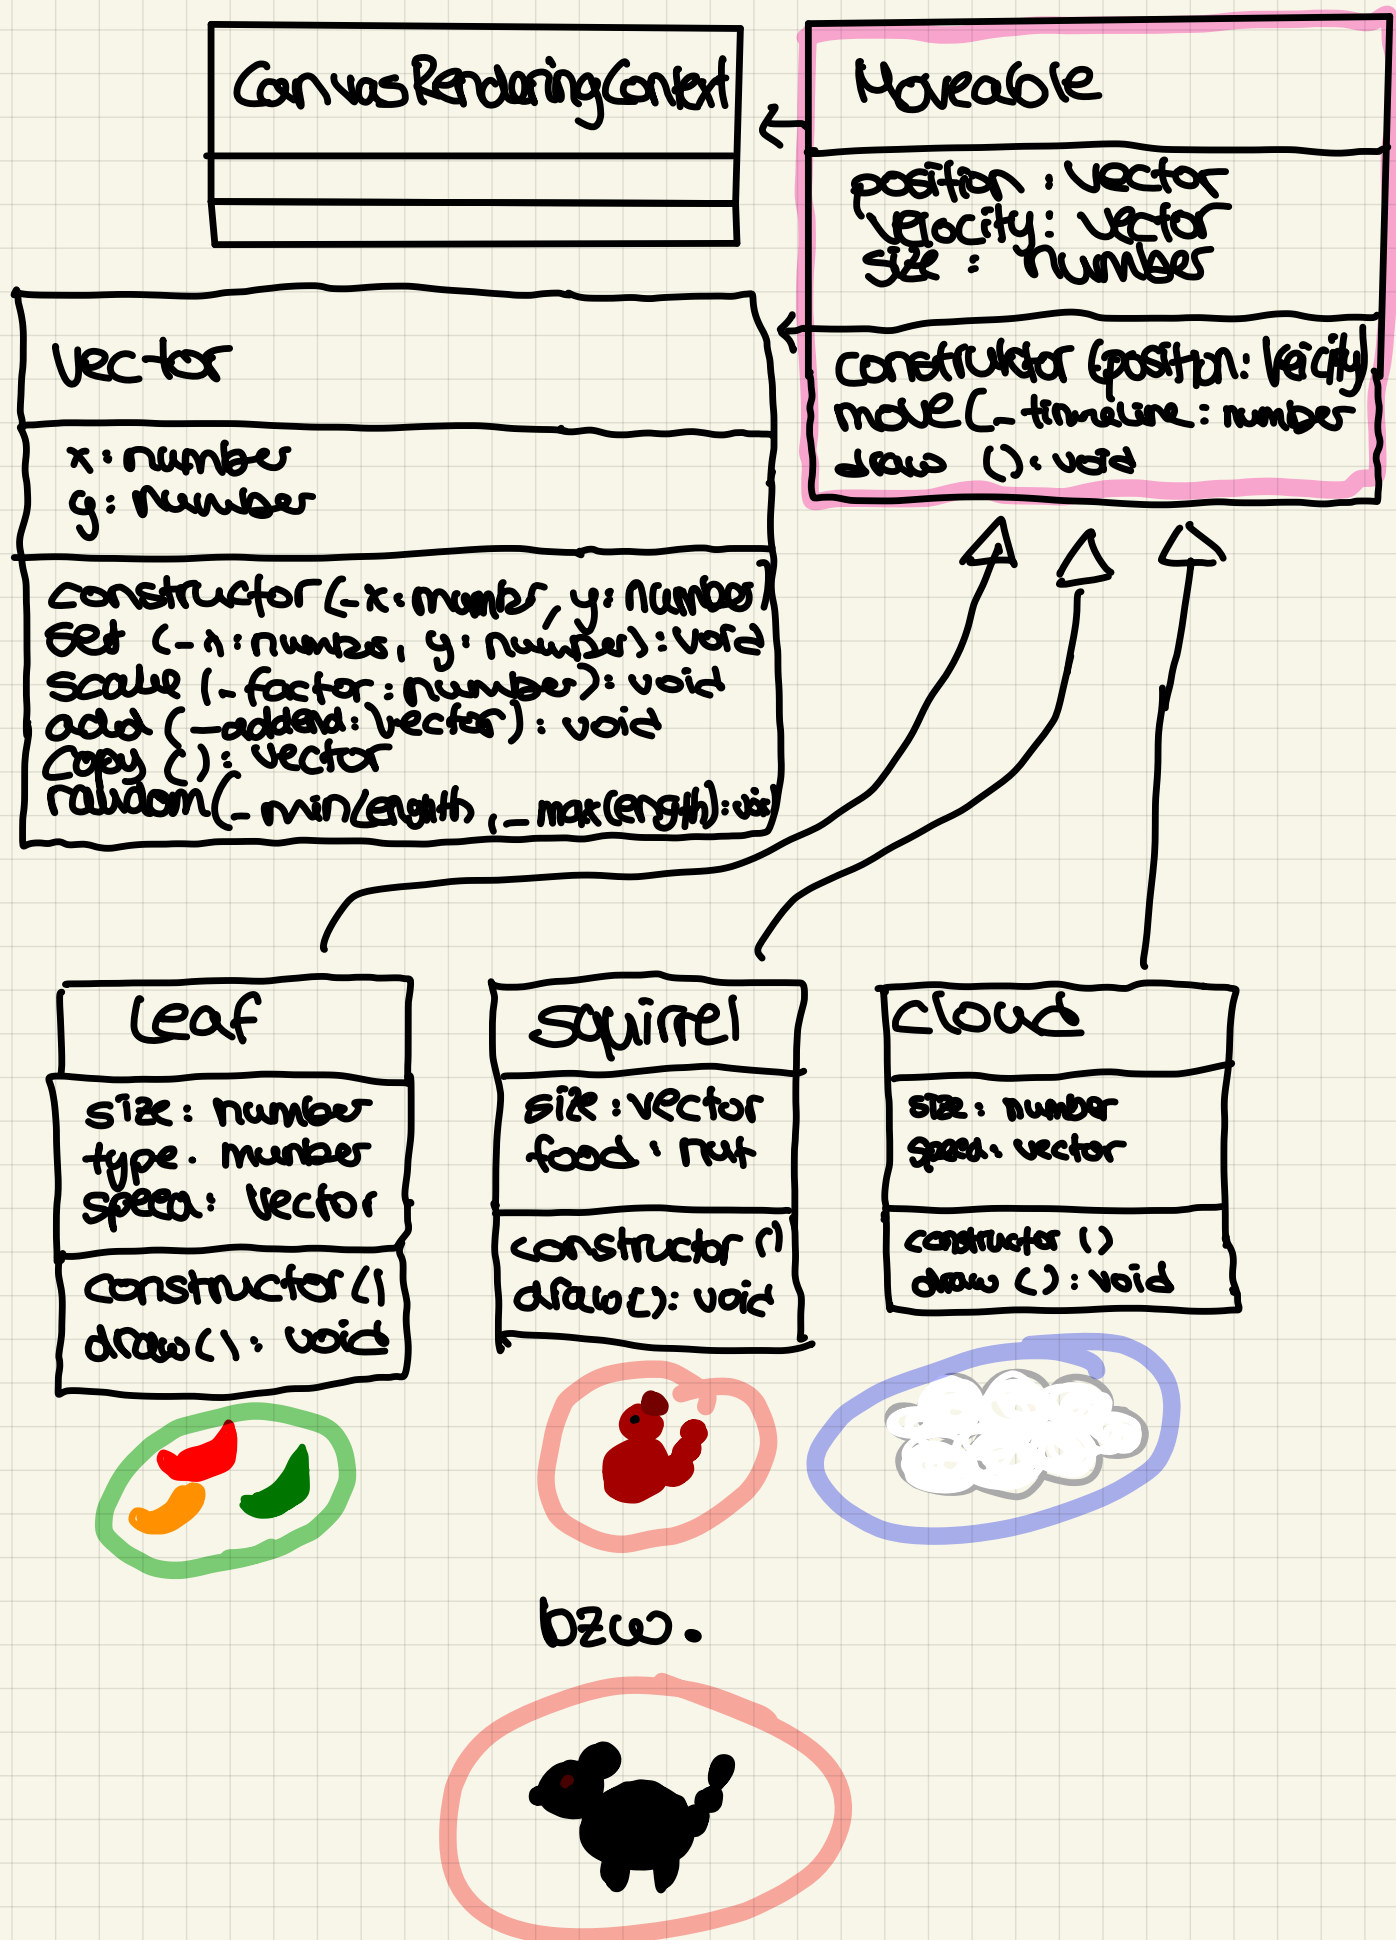

blee - 11

2.1.1 Goldenes Herbst

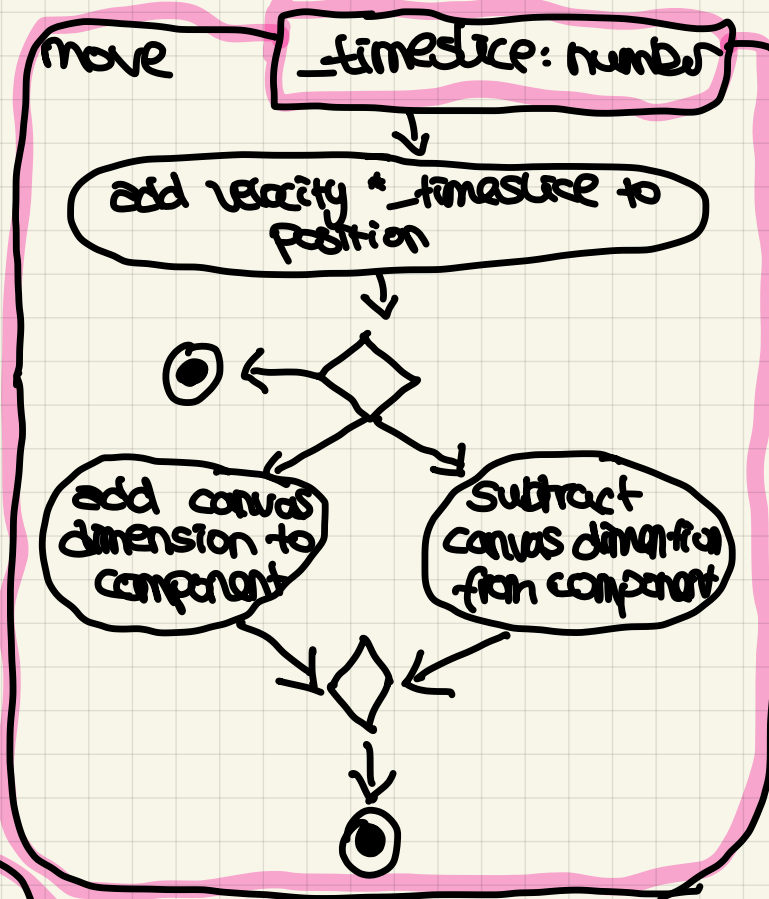

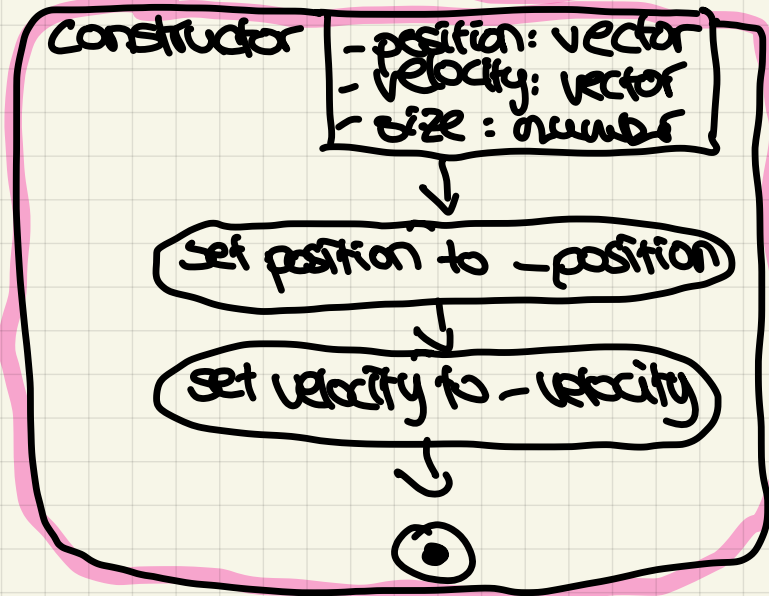

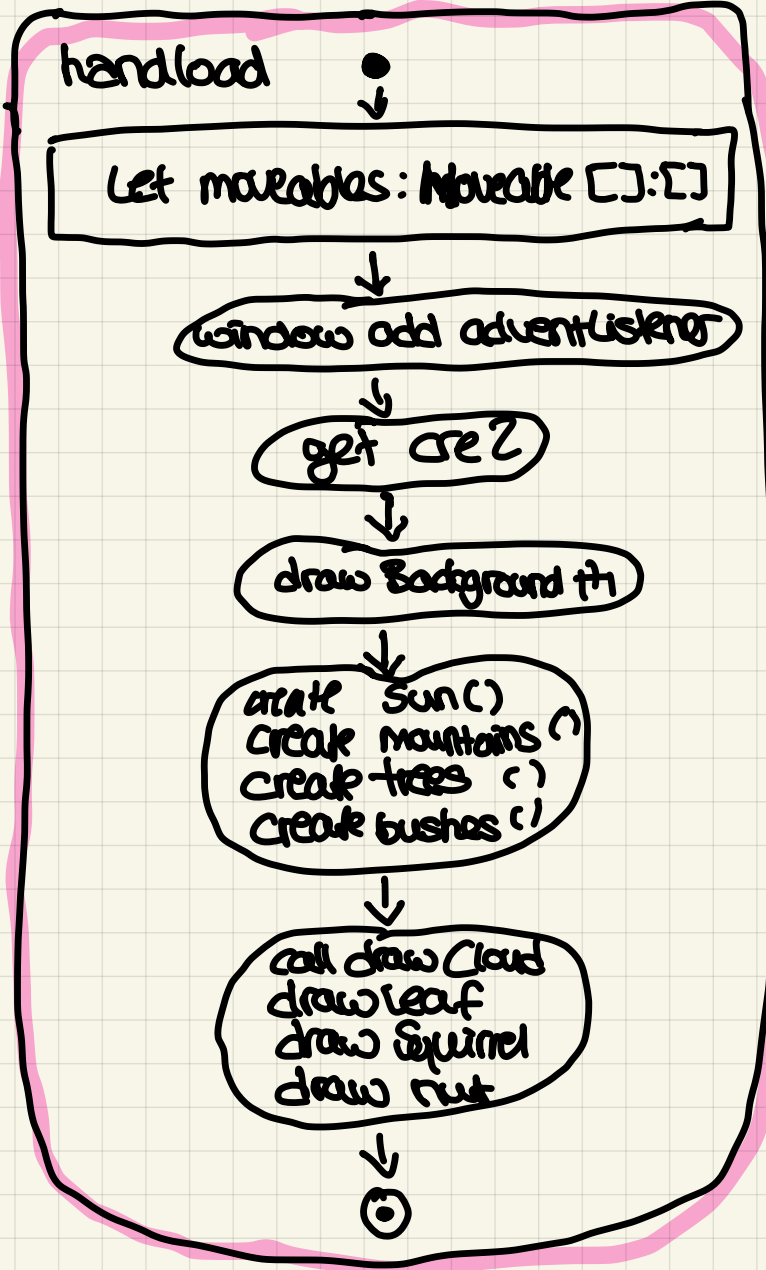

Klassendiagramm

Activity Diagram

Movable

Update

draw

save transform

translate to position

Scale to size

draw path representing type

restore transform

Cloud

constructor

Super (-position, -velocity)

set velocity to random direction and random > min < max

draw

begin Path

radius Particle: number / Particle: Path 20
gradient: radial

particle.arc

add color steps to gradient

save transform

fill with gradient

arc key $2 + \text{Math.PI}$

close Path

fill -> restore ->

Squirrel

draw

- size: vector

draw body

begin Path & FillStyle = "brown"

draw arcs with $2 * \text{Math.PI}$

close Path and fill

draw eye

begin Path & fillstyle

draw arcs with $2 * \text{Math.PI}$

close Path & fill

draw Ear & Tail with arc
 $2 * \text{Math.PI}$

close Path ->

constructor

Super (-position, -velocity)

set velocity to random direction & random length > min < max
